 @FarhanYousafzai0   /Farhan Yousafzai

SKILLS

- ❖ **Frontend:** HTML, CSS, JavaScript, Tailwind CSS, React.js, Next.js, jQuery, GSAP, Framer Motion, Figma
- ❖ **Backend:** Node.js, Express.js, Appwrite, SQL
- ❖ **Databases:** MongoDB, MySQL
- ❖ **Tools & Platforms:** Make (integromat),n8n, Spline

EDUCATION

- ❖ **Intermediate (FSc Pre-Engineering)**
  Armour Public School, FBISE — 2024
  Scored 81%
- ❖ **Bachelor's in Computer Science** *(Planned)*
  Will enroll in the Fall 2025 intake

EXPERIENCE

- ❖ **Full Stack Developer Intern**
  PNY Trainings, Rawalpindi — Sep 2024 to Apr 2025
  Worked on full-stack projects using React, Node.js, Express, and MongoDB. Designed interfaces in Figma and used animation libraries like GSAP.
- ❖ **Freelance Developer**
  Remote — Ongoing
  Built landing pages and websites for international clients using React, Next.js, Tailwind CSS, and other tools. Delivered projects based on Figma designs.

ACADEMIC PROJECTS

- ❖ **Social Nest** — MERN Stack
  A basic social media app where users can create posts and chat with friends. Built frontend and backend, added authentication and messaging.
- ❖ **Fiverr Clone** — MERN Stack
  Freelance marketplace where users can sign up as sellers or buyers, create gigs, and place orders. Developed complete frontend and backend features.
- ❖ **Chatting App** — MERN Stack
  Built a messaging dashboard with real-time chat using React and Socket.io.

- ❖ **OLX Clone** — Laravel
  Developed a product listing site where users can post items for sale. Used Laravel for the backend and templating.

CERTIFICATIONS

- ❖ **Frontend Development** — PNY Institute, Rawalpindi
- ❖ **Backend Development** — PNY Institute, Rawalpindi
- ❖ **Make (Integromat) Certificates** — Foundation, Basic, Intermediate

ACHIEVEMENTS / HOBBIES

- ❖ Participated in college-level hackathons on web development
- ❖ Built multiple websites and apps using the MERN stack and animation tools
- ❖ Completed freelance projects for international clients

INTERESTS:

- ❖ UI/UX design and web animation
- ❖ Solving problems through backend development
- ❖ Learning how AI and ML models work
- ❖ Building complex web features
- ❖ Planning to become an AI/ML engineer
